## Chemical Metering Pump Skids

### Introduction:

Our chemical pump skids provide a turnkey solution designed to optimize performance, improve reliability, and ensure compliance with environmental and safety standards.

### Benefits of Our Chemical Pump Skids:

#### Enhanced Efficiency:

Streamlined chemical delivery improves process performance.

#### Cost-Effective:

Modular design reduces installation and maintenance costs.

#### Eco-Friendly:

Minimizes chemical waste and environmental impact.

#### Reliability:

Engineered for long-term durability in challenging conditions.

Our chem pump skids are shop-assembled and tested to ensure performance and reliability

### Key Features:

#### • Customizable:

Our Chemical Pump skids are tailored to meet specific process requirements. Including pump selection, material compatibility, and configuration. Whether you need single or multi-pump configurations, we can adapt the skid to your needs.

#### • High-Quality Materials

Built with corrosion-resistant materials such as stainless steel, polypropylene, HDPE, and PVC, our skids are engineered for durability in harsh chemical environments.

#### • Advanced Controls

Integrated control systems with PLCs and HMIs offer precise flow control and real-time monitoring, ensuring optimal performance and operational efficiency.

#### • Safety Compliance

Equipped with safety features such as spill containment, and pressure relief systems, our skids meet all industry standards, including OSHA, EPA, and ASME guidelines.

#### • Compact and Modular Design

Our skids are designed for easy installation and maintenance, reducing downtime and operational costs.

Your Trusted Partner  
in Chemical  
Handling Solutions!

## Who We Are

INDUSCO is a family-owned business with over 40 years of continuous service. We always strive to:

1. Diligently take care of our customers and their projects.
2. Provide reliable, high-quality systems at a market-leading price.

We are proud that over 2/3 of our business coming from repeat customers!

## INDUSCO Qualifications

- Experienced engineering staff
- Over 300 project installations around the country and globe
- Adaptable to wide range of process design parameters

**INDUSCO Environmental is dedicated to providing our clients with the most reliable solution at a market-leading price.**

Our Other Products & Solutions: Common Field Services:

- ✓ Scrubbers
- ✓ Air Strippers
- ✓ Degasifiers
- ✓ Odor Control
- ✓ Fume Removal
- ✓ Gas Cleaning
- ✓ Repack Jobs
- ✓ New packing media installation
- ✓ Removal & disposal of fouled packing
- ✓ Key Internal Replacements: liquid distribution systems, demisters & packing support plates

### Let's Build Your Solution!

Partner with us for a tailored chemical pump skid solution that enhances efficiency and reliability in your operations.
